

My Squares!

Take turns doing the following:

- **Player 1** may only color in two adjacent **horizontal** squares at a time.
- **Player 2** may only color in two adjacent **vertical** squares at a time.

Alternate turns with your opponent. Play until one player cannot color in two adjacent squares. That player loses.

Magic Circle

On your turn do one of the following:

- Cross out one circle
- Cross out two circles that are right next to each other

Alternate turns with your opponent. Play until one player cannot cross out a circle. That player loses.

Hungry Cannibal Bears

On your turn:

- Pick a cannibal bear from one island and move the cannibal following the arrows to another island
- That bear will eat all the other bears on the island, reducing the population to 1.
- Bears will not move to islands that do not have anything to eat.

Alternate turns with your opponent. Play until one player cannot move a bear. That player loses.

Pile of Pieces

At the start of your turn either:

- Remove **two** pieces
- Remove **three** pieces

Alternate turns with your opponent. Play until one player cannot remove exactly two or three pieces. That player loses.
